Annexure-III

Best practices of the Institution

Title: Fieldworks, interaction in the classroom, presentation, project work is encouraged for all round academic development of students.

1. Objective of the practice

- ✓ The objective is to cultivate analytical and reasoning abilities of the students through project work, field work
- ✓ To develop scientific temperament
- ✓ To get the grasp of the subject in a practical way

2. The Context

- ✓ Keeping in mind the requirement of skilled work force and to reduce the gulf between classroom practices and market requirements. The challenges lay in making students aware of the need for such activities instead of theoretical project supervisors due to shortage of staff but then the faculty members went an extra mile and addressed and resolved the issue.

3. The Practice

- ✓ In an era of cut throat competition, redundant learning methodologies, hands on learning provides an edge to the students, this is the objective which is met through this practice.

4. Evidence of success

- ✓ The confidence of students has increased due to the practical component included in their learning. Students became more practice in giving inputs getting involved in the learning procedure this also reflected in placements of students

5. Problems encountered and Resources required

- ✓ The supervisors had to deal with issues related to sensitizing the students about issues such plagiarism, meeting deadlines and developing professionalism among the students, but with continuous mentoring by faculty members, it could be resolved

Title: Interdisciplinary courses have been initiated by the different departments**1. Objective of the Practice**

- ✓ The Objective of initiating inter-disciplinary courses is to provide exposure to students about courses in other streams.
- ✓ To gain exposure about courses across the different facilities.

2. The Context

- ✓ As the time dividing the subjects is building it makes more sense to offer courses which are inter-disciplinary in nature, So, there was an urgent need to provide courses which cater to these requirements.

3. The Practice

- ✓ There were many inter-disciplinary courses being offered across the departments both at UG and PG level.
- ✓ The interdisciplinary courses provided the platform for students to explore the possibilities of bringing two disciplines together.
- ✓ The ID courses introduced at UG level were:
 - Space Physics
 - Basic Electronics
 - Computer Hardware and Networks
 - Basic Computer Science
 - Vermi culture
- ✓ The courses introduced at PG level were:
 - Health and Hygiene
 - Spectroscopy & Analytical techniques
 - Nanoscience

4. Evidence of Success

- ✓ There are many students who opted for this courses and it equipped the curiosity and interest of the students. This itself is the evidence that the courses are successful.

5. Problems encountered and resources required

- ✓ The problems were technical in nature. Many students wanted to take up courses from different faculties but they were not eligible for it. For example basic knowledge of Physics is required for a student of Arts stream to opt for space Physics as an ID course. Nevertheless most of the courses are open to the students of all streams.
